THE GOLD SITUATION

Free Stock in the Treasury Increasing.

THREATENED CRISIS AVOIDED.

Banks All Over the Country Coming to the Rescue by Offering the Government Abundant Amounts of the Precious Metal—The President's Statement Having a Good Effect.

WASHINGTON, April 25.—The treasury's stock of gold is rapidly rising. The bankers are coming rapidly to its relief, and it is said that the supply of free gold available is now over \$10,000,000. This result was brought about by large offerings received from bankers, who, as a rule, took legal tender notes in return. The largest offerings came from Boston, which, through the Associated Banks, placed \$4,500,000 at the disposal of the treasury.

It is understood here that the New York banks, as a result of a conference with Treasurer Jordan, will put a large amount of gold to the credit of the treasury, and predictions are made that by the close of the week the treasury gold balance will show an excess of \$20,000,000 above the reserve. The western banks continue to come to the assistance of the government, and sent several millions yesterday. The most gratifying feature of the situation is the tender of additional gold from various sources.

The offers yesterday were accompanied by the suggestion that if they proved to be insufficient further amounts would be forthcoming. Altogether the situation is more encouraging.

The statement of President Cleveland has had a good effect and it is understood to be the purpose of the president to authorize a bond issue in the event that it should be demonstrated by the occurrences of the next few weeks to be necessary, though it is believed the emergency will pass away and that the very knowledge that the administration will be prepared to issue bonds will avert the occasion therefor.

Having a Good Effect.

NEW YORK, April 25.—A statement that the treasury department will continue to pay treasury notes in gold and had never contemplated doing anything else, changed the complex n of affairs on the stock exchange. On Saturday the market closed generally weak; yesterday it opened buoyant and anywhere from 1-2 to 1-2 per cent higher.

FEMALE LYNCHERS.

A Tragedy at a Ball Almost Followed by Another One.

ATLANTA, April 25.—A swell negro picnic was held near Chattahoochee yesterday in honor of a visiting damsel named Laura Jenkins. Gus Dnpree, a negro dudo, got very drunk and very attentive to the woman, and she refused to dance with him again. This mad-dened Gus and he drew a big pistol. "If you don't dance I will kill you," he said. She still refused and he fired, the bullet taking effect in her head. Dnpree ran and a crowd of about 50, mostly women, pursued. He fired several times at his pursuers, but they caught him. "Lynch him" was the popular cry just then, and, suiting the action to the word, a rope was secured and placed around his neck. He was rushed to a tree and as many hands as could get on the rope helped jerk him up, but just at this time police officers heard the shots, came on the scene and saved the negro's life.

Tennessee's Mining Trouble.

NASHVILLE, April 25.—The troops were to have been withdrawn from Tracy City today, but remained upon the order of Governor Turrey to stay until Prison Superintendent Kirk arrived. He is now in Nashville and will take with him 50 extra guards and a squad of convicts for work in the mines. This looks as if the lessees of the mines intended to get rid of free labor entirely, because of the broken promises of the miners last summer to give no more trouble.

Investigating the Books.

PORTLAND, Ind., April 25.—James Durrett of Noblesville and John W. Coons of Indianapolis, two experts, have commenced an investigation of the county officers' books from 1878 until the present time. It will take until June 1 for them to complete the work. This is done in accordance with a petition gotten up by the Farmers' Alliance and presented to the county commissioners.

Place For Prize Fighting.

NOBLESVILLE, Ind., April 25.—Hon. Simeon Coy, ex-councilman and political "boss" of Indianapolis, is contemplating establishing a sporting resort on an island in White river, near the northeastern boundary of this county. It is claimed that the island is neutral ground, and that the local authorities can not interfere with prize fights or other sports.

All Ready on Hand.

INDIANAPOLIS, April 25.—Members of the executive committee of the National Association of Machinists are here to attend to the preliminary work of the convention to begin next Thursday. The convention will be important, in that the amalgamation of different branches of business will be sought.

Returning to Work.

NEW YORK, April 25.—One-half the locked-out clothing makers have returned to work, the differences being settled. The other half will have to idle for a few days, as the shops have not enough work on hand now for full force.

UNDER A FALLEN WALL.

One Man Killed, Four Fatally and Several Others Seriously Injured.

CINCINNATI, April 25.—Fully 50 men were at work on the half completed press-brick building of the Card Electric Motor and Dinamo company, at the corner of Hunt street and Broadway. The outer walls were completed and the partition wall nearly so. Fourteen bricklayers were at work on it. Suddenly it swayed, and before the men could escape to the outer walls, the whole thing came down with a crash, hurling the victims 40 feet to the cellar and burying them in the debris. Three escaped by clinging to creaking timbers.

The reserve police force and a portion of the fire department were dispatched to the scene. They drove the morbid crowd away from the scene and began the work of rescue. Shrieks of the suffering victims pinned down by tons of brick, iron posts and heavy timbers could be heard a block away.

George Hull, 55, married with a family, was dead when reached, his head being crushed out of all human shape. The fatally injured are:

Frank Weinewuth, head crushed. Ed Weinewuth, crushed about the body.

Ambrose Hughes, internal injuries. Bud Morrissey, skull fractured.

The seriously injured are John Rowan, head cut; William Thompson, crushed about the back; John Fox, head cut; Elijah Johnson, colored, Dayton, O., internal injuries; Elijah Johnson, colored, Bellevue, Ky., jaw and nose crushed; John Khock, left arm broken.

The building inspector's investigation shows that a weak foundation was the cause of the disaster, the mortar which was used being mostly of sand, which crumbled as soon as dry, and the foundation being of "made" ground.

A Mammoth Apartment House.

CHICAGO, April 25.—Another mammoth apartment house is planned for the South Side. It is to be the largest and most expensive in the world, and will be known as the Drexel. It will occupy an entire block on Fifty-first street, between Cottage Grove avenue and Drexel boulevard, having an entire frontage of over 570 feet. When complete the building will cost more than \$2,000,000. The structure will be nine stories high. This entire building will be completed in 1895, and, in all, will contain 1,800 rooms.

Duke in the White House.

WASHINGTON, April 25.—The Duke of Veragua called on President Cleveland yesterday afternoon. The duke and his attendants were shown immediately into the blue room, where the president and Mrs. Cleveland awaited them. There was no attempt at ceremony. Commander Dickens made the introductions and a few words were spoken, with just a suggestion of formality by the duke and by the president in reference to the visit of the duke to America.

Prospects of a Strike.

INDIANAPOLIS, Ind., April 25.—There is every prospect of a strike among the plasterers May 1, unless the situation changes. The union men demand that they be allowed to do lathing, a branch of the work now being done by other workmen, and contractors assert that they will not change their present plans, as the proposed change would increase the cost of building. Generally the labor situation here is in a more peaceful condition than for years at this season.

Claims It an Accident.

CAMDEN, N. J., April 25.—While Harry Johnson and Michael Burke were returning home last night after spending the day drinking with some friends, they became involved in a quarrel with two strangers and in the fight that ensued Johnson's revolver was discharged, the shot taking effect in Burke's head, killing him. Johnson, who is under arrest, claims that the shooting was accidental.

An Old Lady Struck by a Train.

ALLIANCE, O., April 25.—As the east-bound express on the Tuscarawas branch of the Cleveland and Pittsburgh railroad was coming into Mineral Point, it struck Mrs. Henry Jones, aged 74 years, throwing her 80 feet and inflicting fatal injuries. The old lady was quite deaf and did not hear the train approaching.

Unprovoked Murder.

ST. LOUIS, April 25.—Mathew No-backer, a German butcher 25 years old and unmarried, was shot and instantly killed by Isaac Dickson, a negro, in a saloon at the corner of Chateau avenue and Manchester road. The killing was unprovoked and cold-blooded. Dickson was arrested.

Strike Declared On.

OMAHA, April 25.—At the end of a conference between the federation committee and the Union Pacific officials, the strike of the machinists, boiler-makers and blacksmiths was declared off. By agreement between the two sides the terms of settlement are to be kept secret.

One Failure Follows Another.

WILMOT, S. D., April 25.—The bank of Wilmot has been dragged down by the failure on Saturday of the bank of Milbank. William M. Sargent was president of both banks. Depositors will be paid in full, 75 per cent of their deposits being now available in cash.

UPPER SANDUSKY, O., April 25.—When Jacob Wonder, engineer of the Smith Stone Crushing concern, at Carey, was firing up the boiler exploded. Wonder was blown clear through the boilerhouse, which was almost entirely demolished. No others were near and Wonder was the only one injured. He was, perhaps, fatally injured, sustaining innumerable cuts and bruises, besides internal injuries.

FORCED TO THE WALL

Three Ohio Firms Make an Assignment.

LIABILITIES NEARLY \$1,000,000.

The Concerns that Are Involved Are the Ohio Coal Exchange, the Crescent Coal Company and the Jacksonville Store Company of Jacksonville, Athens County.

COLUMBUS, O., April 25.—The big Yates failure at Rochester precipitated failures here with liabilities aggregating \$1,000,000. The concerns that are involved are: The Ohio Coal Exchange, the Crescent Coal company and the Jacksonville Store company of Jacksonville, Athens county.

At the request of those interested in the two first mentioned companies, receivers were appointed by Judge Pugh for them, and executions for \$12,000 against the Jacksonville company closed the concern. It is a mining store company, owned by persons interested in the other two companies.

The Coal Exchange company owns no mines, but buys the output of many Ohio mines and sells it to the trade. It had been selling a great deal of coal to Yates to supply the northwestern trade. When the Yates failure came they had \$50,000 of his paper on their hands, \$50,000 of the paper of the Ontario Coal company, and \$50,000 of the Lehigh and Franklin Coal company. All are now insolvent.

The capital is \$100,000, and is owned by Joseph D. Hurd and A. R. Doty, of Chicago, and A. O. Mauck, of this city. Doty, Mauck and McKelvey, of Sandusky, own the stock of the Crescent Coal company, whose mine is at Jacksonville. L. L. Rankin was made receiver of the Ohio Coal exchange, and F. S. Knox receiver of the Crescent company. The liabilities of the exchange company are said to be \$900,000, and those of the other company \$40,000.

The assets of these companies will reach, it is estimated, \$400,000.

READY FOR THE REVIEW.

Preparations All Complete for the Great Naval Demonstration.

NEW YORK, April 25.—The entire naval review fleet of about three dozen American and foreign warships have anchored in the lower bay. Their entrance from the ocean into the bay was without formality. They are to get into place just inside of Sandy Hook with the Philadelphia carrying Rear Admiral Gherardi, at the head of the port column and the British cruiser Blake, with Vice Admiral Sir John Hopkins aboard, at the head of the starboard column. Wednesday the vessels will steam slowly up the North River and take their places for Thursday's review by the president.

Elaborate preparations are being made for the ball to be given in Madison Square garden Thursday night. Of the 10,000 persons who are expected to be present, about 700 will be in naval uniforms of 10 different nations, and besides these there will be military officers present in full regimental, so that the dances will likely present one of the most brilliant spectacles ever seen at an American ball.

CHICAGO'S GREAT WHEAT DEAL.

It Is Still Being Pushed With Unabated Vigor.

CHICAGO, April 25.—The great wheat deal engineered by the Cudahys and unknown millionaires who have stood in with them for some months is still being pushed with unabated vigor. But operations have been shifted or transferred. The manipulators have dropped the May options. The squeeze is now on in July.

Pardridge is believed to have fully recouped himself for his recent heavy losses. He dropped \$500,000 or \$800,000 in the May squeeze, but the Cudahy clique found themselves in such a fix that they were compelled to let go, and the little plunger got out from under just as everybody supposed he had lost his financial head in chancery.

TYPHUS IN MEX.CO.

There Is a Prospect the Scourge May Soon Be Wiped Out.

CITY OF MEXICO, April 25.—The typhus epidemic in the City of Mexico is almost under control, and the board of health expects to have it entirely stamped out in a few days more.

There is also a decrease in the number of deaths reported in San Luis Potosi and other cities in Mexico, where its ravages have been severe during the past four months. There are a few cases at Tampico, where it has obtained a foothold among the soldiers stationed there.

Two Men Drowned.

CLEVELAND, April 25.—Three young men, Julius Falk, Martin Arelt and Charles Liptak, hired a boat and rowed out to the breakwater. They had been gone about an hour when Falk wanted to return but the other two desired to stay out longer. Falk in attempting to get upon the breakwater capsize the boat, throwing all three into the water. Falk and Arelt could not swim and were drowned. Liptak clung to the boat and was picked up almost dead by the tug Alva B. Both bodies have been recovered.

Acquitted of Murder.

MADISON, Ind., April 25.—Marshall Travis and five other colored men, who were indicted for the murder of Oscar Leap, a white man at Vevay, last February, were acquitted by the jury after being out five minutes. A white man is supposed to be the guilty one.

CHICAGO LEADS ONCE MORE.

There an American Paper Printed in Chinese Will Appear.

CHICAGO, April 25.—The first American newspaper printed in Chinese will make its appearance in this city in a few days. It will be known as The Chinese Weekly News. The incorporators of the Chinese News company are Wong Chin Poo, John W. A. Henning, a Chicago lithographer, and Charles S. Stanton of Chicago. Chin Foo has a half interest in the enterprise, and has secured the financial backing of J. S. Hoy and Donald McDonald of Albany.

The platform of the new publication is given by Editor Wong in three words: "To Americanize Chinese." It will endeavor to influence every Chinese in this country to become an American citizen, to speak the English language, to wear American dress, and to enter into politics the same as any other citizen.

The first wrong which the paper will attempt to right is the law now in effect restricting the naturalization of Chinese. This law, the editor holds, is unconstitutional. A test case will be soon commenced and carried to the supreme court at the expense of the new paper.

The paper, it is claimed, will be the literary wonder of the Columbian exposition. It will be an eight-page illustrated publication, issued every Saturday.

Wreck on a Bridge.

IRONTON, O., April 25.—As engine No. 8 on the Iron railway was coming from Wellston to this city, drawing a loaded train consisting of limestone cars and one passenger coach, three of the loaded cars jumped the track on Bridge No. 12, five miles back of this city. The bridge was badly wrecked but the cars were checked in time to prevent a tumble over a high embankment. Conductor Henry Tulga, with rare presence of mind uncoupled the passenger coach, applied the brakes, stopping the car before it could run into the wreckage. There were seven passengers in the coach at the time. No one was injured.

Probably in Canada.

FREMONT, O., April 25.—G. W. Welker, the missing music dealer of this city, is still absent, while his creditors are steadily increasing. The latest estimate of his indebtedness places the amount at over \$10,000, which will take all of his property and more to cover it unless he has other resources that are not as yet known. The fugitive's wife has received a satchel from him sent from Detroit, and it is now believed that he is in Canada. His family, of wife, daughter and little son, are prostrated over the affair, and have the sympathy of their many friends.

Coal Miners Organizing.

PITTSBURGH, April 25.—The 6,000 coal miners employed in the pits along the Monongahela river propose to form an organization. Circulars have been issued stating that on next Monday a convention of river miners will be held in Byers' hall, Monongahela City, Pa. All of the districts have been requested to send delegates. These are the men who were defeated in the recent river miners' strike.

Old Conductor Seriously Hurt.

ALLIANCE, O., April 25.—Richard Varner of this city, an old and popular conductor on the Fort Wayne railroad, was caught between the deadwoods of two cars while making a coupling from the inside of a curve at Orrville and terribly squeezed. His physician entertains but little hope for his recovery.

St. Louis Wants a Vessel.

PHILADELPHIA, April 25.—A committee of five from St. Louis, including Congressman Cobb, Bartholdt and Joy, appeared before the directors of the International Navigation company, and asked that one of the steamers now being built for the American line by the Cramps, be named after their city. The directors are considering the matter.

Three Deaths in One Family.

MARION, Ind., April 25.—The wife and two daughters of Sherman Conn of this city, died within 24 hours. The youngest died on Saturday, the eldest Sunday morning, both of diphtheria. The mother, who had been ill for several weeks, died before the return of the party bearing the remains of her children to the grave.

PANIC IN A CHURCH.

Eight Women and Five Children Fatally Crushed.

THE DISASTER CAUSED BY FIRE.

Besides the Dead Hundreds of People Were More or Less Injured—Another Incendiary Fire in Hull—Religious Riots in Ireland—Other Foreign Dispatches.

NAPLES, April 25.—A fatal panic occurred in a church at Torredell Annunziata, 12 miles south of this city. During the services, which were attended by a large number of persons, part of the draperies about the altar were blown against a lighted candle. The flames spread with great rapidity, and the congregation made a rush for the doors. The wildest excitement prevailed and women and children were thrown to the floor and trampled upon.

The fire was quickly extinguished, and when some semblance of order was restored, it was found that eight women and five children had been crushed to death, while hundreds of others had been more or less seriously injured.

Foreign Crops.

LONDON, April 25.—A dispatch from Paris to the Times says that long-needed rains fell near Havre and Bordeaux yesterday. Elsewhere in France the drought continues to wither the crops. Throughout Italy heavy losses have resulted from the unprecedented dryness of the season, and prayers for rain are offered daily in the churches.

Outside of Sicily the damage already done is estimated at millions of pounds. The agricultural districts in southern Russia, near Odessa, are suffering from severe frosts and occasional snow-storm. The crops may be a total loss.

In Germany the drought is unbroken. In Austria-Hungary it has resulted in disastrous fires in forests and small villages.

A dispatch from Cairo says that the unusual cold has retarded the cotton crop.

Military Keeping Mobs Apart.

LONDON, April 25.—The conflict between Orangemen and Nationalists in Belfast proceeds intermittently. More than 3,000 Orangemen have been marching about in processions, threatening to attack the Nationalists. Carriek hill is held by an equally strong force of Nationalists. The military has been kept between the two mobs, and will probably prevent their meeting. Several fights between less considerable bodies of Nationalists have been stopped by the police.

Another Incendiary Fire in Hull.

LONDON, April 25.—Another incendiary fire was started in Hull today at a timber dock. It was discovered and extinguished before doing much damage. Riottous crowds still fill the streets near the docks. Several fights between union and nonunionist laborers took place this afternoon and several persons were injured. Two nonunionists were shot with revolvers but will recover.

The anarchists in London have decided to make a demonstration in Hyde Park on May day.

Cholera Disappearing.

ST. PETERSBURG, April 25.—The Official Gazette in recording cholera statistics for the empire denies that a case has been found in this city since last December. Several suspected cases were shown by bacteriological examination, it adds, to be merely acute catarrh infection. The Persian consul at Baku announces that cholera has disappeared from Persia.

Philanthropy of a Rothschild.

VIENNA, April 25.—Baron Nathaniel Rothschild has given his chateau and estates at Reichenau in the Styrian Alps to be used as a hospital for sufferers from lung diseases. He will make the necessary alterations in the chateau and place in it 500 beds for the use of patients. The value of property in question is 5,000,000 florins.

Orangemen and Catholics Fighting.

BELFAST, April 25.—The Orangemen employed in the Queen's Island shipyards refused to allow 1,000 of their fellow-workmen, who are Roman Catholics, to resume work at the yards and chased them away from the place. In the attack which attended the expulsion of the Roman Catholics, a number of persons were injured.

Honors to Coolidge.

PARIS, April 25.—The American colony at Paris met on Saturday to pay a tribute of esteem to the retiring American minister, Hon. Thomas Jefferson Coolidge. The meeting resolved to give Mr. Coolidge a farewell dinner and an illuminated address.

Four Killed and Fifteen Injured.

LONDON, April 25.—The stone coping of several 4-story houses in Peel road, Kilburn, fell while the street was full of pedestrians. Four persons were killed and 15 were injured.

St. Hancock Laid to Rest.

ST. LOUIS, April 25.—In a terrific downpour of rain yesterday, Mrs. Hancock, widow of General W. S. Hancock, was laid to rest in the family vault at Bellefontaine cemetery. No services were held, and only the relatives and two or three friends were present.

Two Men Frightfully Mangled.

NASHVILLE, April 25.—James Hindson and Harry Butterfield aged 17 and 20 respectively were run down by a Louisville and Nashville passenger train in a deep cut at Maplewood, four miles out, and killed, both being frightfully mangled.

The recent municipal elections in New Jersey show no wavering in the ranks of her Democracy. The party scored victories all along the line.

CORPORATIONS are kicking against provisions in the new law in this State, but they don't seem to be faring any better in some other States. The State of Missouri has commenced quo warranto proceedings against one hundred corporations to relieve them of their franchises for failure to comply with the State's Corporation laws.

The cordage trust embraces forty-nine companies and the "insiders" concerned in the monopoly, in the language of the New York World, have grown "suddenly and scandalously rich," their wealth having been "robbed and stolen from the people, that New York and Chicago society may dance and feast and disport itself the more splendidly." Nothing should be left undone to break the hold of this monopoly on the people.

Here's something to the point in regard to the "hauling down of 'Old Glory'" at Hawaii. Republican editors who are trying to kick up a muss over the matter should read it. The Boston Advertiser, (a Republican paper), says: "As for the 'hauling down of the American flag,' the American flag was not run up by American authority. President Harrison never authorized it. Secretary Foster emphatically disavowed it. Hawaii is, up to date, an independent nation. The United States is under treaty obligations to, respect and maintain its independence.

THE New York World gives Senator Hoar and his companion Republicans a merciless scoring for their attempts to push the Roach investigation resolution. It says: "Senator Hoar's course in this matter is a piece of nauseating hypocrisy, eminently characteristic of the New England political Pharisees. The Massachusetts Senator and his party colleagues have sat for six years with an embezzler of public funds as their associate, and have not only made no move to investigate his case, but have continued to profit by his services as an expert corruptionist in carrying elections."

The Course of True Love.

Reuben Adams, aged seventy-two, and Miss Arkie D. Osborn, aged sixty-three, were married last week in Clark County. The Winchester Sun says: "This was the second marriage of the groom. Over forty years ago he courted Miss Arkie, but the course of true love didn't run smooth, and Reuben married another woman with whom he lived happily for many years, until the grim reaper came along and left him a disconsolate widower. In the course of time, however, his great sorrow was partially healed; but there remained in his heart a longing for some gentle, tender spirit to preside over his destiny. He bethought himself of his first love, little Arkie, and with fluttering heart and trembling step he sought her out. Little Arkie had remained true to her first love. The old flame was rekindled, the vows of long ago were renewed, and now the twain walk as one down through the evening of life happy in each other's love."

RIVER NEWS.

Rising steadily here since Saturday. The Andes left Pittsburg last Sunday with an excursion party, and a special says the boat looked like a slaughter house on arriving at Wheeling. A lot of "toughs" had things their own way. Two men were knocked overboard and drowned.

The steamer Big Sandy broke all records for fast time between Cincinnati and Louisville Sunday. She left Cincinnati at 12:05 noon, and arrived at Louisville at 8:40 p. m., making the run, including sixteen business landings, in eight hours and thirty-five minutes.

The Sherley of the "Yellow Collar" Line, the opposition packet in the Kanawha trade, reached Maysville an hour or so ahead of the Stanley yesterday, indicating that the latter was getting a little the best of it in the way of business. The Sherley got a good lot of freight at this point.

A protracted meeting is in progress at Mt. Lebanon. Rev. Morgan, of Tollesboro, and Rev. Prior, of Walton, are holding the series, which we hope will last several weeks, as they are doing much good.

This school district No. 19 and district No. 37 of Mason have had things mixed for years, and it has come to the point that the State Superintendent of Public Schools has to settle the matter, which we hope will be satisfactory to the trustees of both districts. We hope the day will soon come when the people of Lewis County will follow the plan of local taxation as it is done in Mason County. Our district being a fractional district, part of it is in Mason, and from the small amount of scholars in said county we realized enough money to pay for an extra month's school last winter, and we were sorry to think that any citizen of the county of Mason had the audacity to want Senator Wall to investigate the matter of how and where the money was spent. If any of it was used for anything else but to have a longer term of school it was through the incapacity of trustees. We hope to have the honor of voting for the tax and for the same purpose in our county as they did in Mason.

The State Against Mason & Foard.

The suits of the Commonwealth against the Mason & Foard Company were partly decided in the Circuit Court at Frankfort Friday, when decisions on divers demurrers were heard. The minority members of the Sinking Fund Commissioners claimed \$94,000 from the lessees and the majority claimed about \$35,000. On the face of the court's rulings the issues joined will be on amounts aggregating about \$35,000; however, permission to amend was given both parties. At the request of the Commonwealth the cases went over until the next term of court.

THE MARKETS.

CINCINNATI TOBACCO MARKET.
Furnished by the Cincinnati Leaf Tobacco Warehouse Company.

We are glad to report a continued strong market. The offerings were more liberal than the previous week, though not heavy, and the demand was very encouraging throughout.

In new character of the offerings was without much change and very little of particular merit was shown. Common trash and lugs were as active as ever, and we think them a fraction higher in price. Common and medium leaf, as well as the better grades, sold full up to quotations.

In old stock there was some fluctuation. Not quiet as strong on Thursday as on the two previous days, but on an average there was, perhaps, very little change in price. At times the bidding was quite spirited, but the often remarked, apparent indifference of the manufacturers towards these splendid tobaccos still made itself felt. Within the next few weeks, though, we think they should want them, as the new will get too soft for their purpose. This will only cover a short space of time, however, and we cannot recommend to our friends too urgently to use this, possibly, the most favorable opportunity to dispose of their old stocks.

The offerings during the week were 2,091 hds; rejections, 477 hds; actual sales, 1,557 hds; receipts, 1,417 hds.

Sales for this week will be as follows: First, Globe; second, Hordmann; third, Cincinnati; fourth, Walker; fifth, Morris; sixth, Miami.

SHANNON-KANE.

A Pleasant Wedding at St. Patrick's Church at an Early Hour This Morning.

At 5 o'clock this morning Mr. Hugh F. Shannon, of Chicago, and Miss Sarah Kane, of this city, were united in the holy bonds of matrimony by Rev. Father Donnelly, at St. Patrick's Church. The edifice was brilliantly illuminated, and the great number of tapers on the altar, all of which were lighted, added wonderfully to the beauty of the scene.

The organ was presided over by Miss Mary O'Donnell and in response to her skillful touch the wedding march pealed forth in all its sweetness.

The ushers were Mr. John J. Burns, of Chicago, cousin of the bride, and Mr. Mark Donovan, of the Winchester (Ky.) Democrat, an intimate friend of the groom.

The bride, a most admirable young lady, was attired in a beautiful gown of dark mode, with hat and gloves to match, and diamond ornaments, the latter a present from the groom.

The groom is well and favorably known here in his old home. A few years ago he represented the Fourth ward in the City Council. He is now engaged in the shoe business in the home of his adoption, and like many other Maysville men who have located in the "Windy City" is doing well, to the gratification of his many friends.

The happy couple were the recipients of many handsome and costly presents, evidence of the high esteem in which they are held by a host of warm friends and admirers.

The couple left immediately after the ceremony on the C. and O. for their future home in Chicago. The BULLETIN joins with their many friends in wishing them a safe journey and a long, happy and prosperous life.

Everybody Invited.

Howard Saxby's lecture to-night is not for the Masonic fraternity alone but is for the public in general. Everybody is cordially invited, and it will pay everyone to hear him. Electric cars will leave Masonic Temple after the lecture. Don't miss it.

His burial will take place to-morrow afternoon at 3 o'clock at Charter Oak Cemetery. The Oddfellows of Aberdeen, who have charge, will assemble at their hall at 2 p. m. The lodges of Maysville are invited. The procession will leave Oddfellows' Hall, Aberdeen, promptly at 2 p. m.

The People's Building Association will open their third series Saturday, May 6th, 1893. Those desiring to accumulate money in a small way as well as those desiring to purchase a home with the money they are now paying for rent should avail themselves of this opportunity and subscribe for stock at once. Call on Robert L. Baldwin, Secretary, John Duloy, Treasurer, C. L. Sallee, Attorney, or any of the directors.

The Lexington Press has made sensational charges against the present administration of that city. It claims that during the past year \$382,000 had been paid out, and the appropriations amounted to only \$263,801.80, leaving nearly \$170,000 paid out without warrant of law. Under the present charter of Lexington no money can be paid unless it has been appropriated for the specific purpose by the City Council. Mayor Davidson called a special meeting of the Council and asked that a thorough investigation be made.

SOME new variety of fakir is continually thumping the blue grass farmers, attracted perhaps by the fact that so many other sharpers have found it comparatively easy to wheedle a class of rich rustics in that section out of their money. The latest, according to the Shelby News, is a man about thirty-five years of age, rather tall, smooth face and light complexion, and a very slick talker, who is taking up subscriptions for publications for one year for \$1, and a premium of one hundred feet of patent clothes line thrown in.

KILLED HIS WIFE.

Anderson Veney, a Native of Maysville, Under Sentence of Death in Canada.

Anderson Veney, colored, was tried last week at Amherstburg, Ontario, for the murder of his wife, Martha Veney, on September 11, 1892. His attorneys set up a plea of insanity, but the jury returned a verdict of guilty, and the Judge sentenced him to be hanged on May 18. The jury recommended him to the mercy of the court, however, and his sentence may not be carried out.

The Amherstburg Echo says he will likely be sent to an asylum, as the opinion is general that he is a lunatic. He was insanely jealous of his wife, and cut her throat in one of his passions. When arrested he was trying to end his own life by cutting his throat.

Veney was born in this city in 1845. His mother at the time was a slave, owned by a family named Cleney, and she was employed in a rope factory. She became insane in the past year or so, and died a few months since at Amherstburg.

Saxby as a Lecturer.

Howard Saxby, the Cincinnati editor, humorist, poet and lecturer, is rapidly rising into greater prominence. He can write anything and can say anything. Everybody reads everything he writes and would like to hear everything he says. This is not true of any other man. He deals in the business of producing both laughter and tears. He can bring tears to all eyes and can wipe them away from all faces. He can cause great tears to roll down one of your cheeks while he spreads a broad grin over the other. He speaks a long time, but never too long.—Clermont (O.) Courier.

Mr. Saxby will make his first appearance before a Maysville audience at Masonic Temple this evening. Tickets 50 cents; on sale at the drugstores and at Peed & Dye's. Proceeds for the benefit of the Masonic Library. Turn out and help in a worthy cause.

A Big Sale.

JAMES TAYLOR, colored, of this city, is porter on a Pullman palace car, and has a run between Cincinnati and New Orleans. He has made one trip to Mexico since he got his position.

The Benton Tribune would have the candidates for the Legislature declare themselves as to their choice for United States Senator, and thinks they should be called out on this important subject.

The Huntington Herald: "One of the parties who brought suit against the H. and B. S. road for \$10,000, alleging that his property was damaged to that extent by the building of the road, did not buy the property until after the little road had been completed, and then only paid \$1,500."

The Delaware Legislature has enacted a law compelling all tradesmen selling cigarettes to pay a license fee of one hundred dollars yearly, and forbids the sale of cigarettes to boys under the age of seventeen. For violation of this law a fine of fifty dollars and imprisonment for any period not exceeding one year is provided for the dealer who sells, as well as for the person who procures the cigarettes.

JAMES WHITCOMB RILEY appeared at Macauley's theater, Louisville, week before last, and the Courier-Journal says: "Mr. Riley had to decline the most enthusiastic and prolonged calls for extending the programme. The audience was so hungry for his delicious humor and tender feeling that it would apparently have spent the night with the genial poet." Mr. Riley will appear at the opera house here next Monday night. The entertainment will be a genuine treat, and no one who enjoys a good thing will miss hearing him.
